

ZUCCHINI EVERGLADE

A MEDIUM DARK GREEN ZUCCHINI HYBRID

- Small blossom-end scar
- Short to medium length
- Open upright growth habit
- Robust disease and virus resistance
- Reduced spines on petioles
- Cylindrical fruit with good uniformity

Type:

A medium dark green hybrid zucchini squash.

Maturity:

Medium early.

Plant Characteristics:

Medium size frame, upright habit. Reduced spines allow easy harvest and less fruit damage.

Fruit Characteristics:

Medium dark green. Glossy appearance. Small blossom end scar. Well rounded blossom end with no taper. Cylindrical form with high uniformity. Short to medium length.

Disease Resistance:

Intermediate resistance to Px, CMV, WMV, ZYMV, PRSV

Yield Potential:

High yield potential due to strong disease and virus resistance extending harvest period.

Disclaimer: This information is based on our observations and/or information from other sources. As crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, and the environment, including management, we give no warranty express or implied, for the performance of crops relative to the information given nor do we accept any liability for any loss, direct or consequential, that may arise from whatsoever cause. Please read the Starke Ayres Standard Terms and Conditions of Sale before ordering seed.

Resistance: is the ability of a plant variety to restrict the growth and development of a specified pest or pathogen and/or the damage they cause when compared to susceptible plant varieties under similar environmental conditions and pest or pathogen pressure. Resistant varieties may exhibit some disease symptoms or damage under heavy pest or pathogen pressure (HR = High resistance, IR = Intermediate resistance).
